**Industry visit: CNH Plant****by****Jaipuria Institute of Management, Indore**

On September 4, 2025, the students of **Jaipuria Institute of Management, Indore**, undertook an industrial visit to the **CNH plant, a global leader in the manufacturing of construction and agricultural equipment**. Guided by faculty members **Dr. Rekha Attri, Dr. Jagdish Bhagwat, and Dr. Debasis Mohanty**, the visit witnessed the active participation of 28 students who explored the practical dimensions of large-scale operations. The session was facilitated by **Mr. Sohil Mansuri, Safety Engineer**, who introduced the group to the plant's rigorous safety culture, operational discipline, and world-class production practices. This immersive experience offered students a unique opportunity to witness how classroom theories translate into real-time industrial applications while gaining exposure to global manufacturing standards.

Key insights from the visit included:

- **Safety First:** Strict safety protocols, mock drills, and daily checks underscored the plant's disciplined approach to worker protection.
- **Scale of Operations:** Established in 1989 and partnered with L&T in 1995, the 40-acre facility employs around 800 workers and houses advanced assembly lines for SSLs and excavators.
- **Cutting-edge Fabrication:** Demonstrations of robotic welding, gas arc welding, and laser cutting highlighted precision-driven production.
- **Continuous Improvement:** Practices like 5S, 4M, 5T, Kaizen, and waste management reflected CNH's commitment to efficiency and sustainability.

The industrial visit proved to be a highly enriching experience, bridging classroom concepts with real-time practices and equipping students with valuable insights into the complexities of modern manufacturing.

### **Team Media Relations Committee for the Event Coverage:**
